

Hello Yumble Friend!

If you're like me, you know a well-balanced, healthy meal is essential to keeping your kids engaged all day. That's why I created Yumble: to help busy families serve healthy and delicious meals everyday, even if there isn't time for cooking that day or week.

### What is Yumble?

Yumble is a weekly subscription service delivering healthy, ready-to-eat kids' meals straight to your door. I created Yumble for busy families when I realized how challenging it was to get real food on the table for my three kids (and getting them to eat it)!

### Why Yumble?

- **Organic Ingredients** - We source organic grains and vegetables regionally and feature no antibiotic meats, no refined sugars, or unnatural preservatives.
- **Fresh & Ready-to-Eat** - Delivered to your door weekly, Yumble is made fresh and ready-to-eat. Heat in the microwave and then pack it for lunch in an insulated container!
- **Hidden Veggies** - Hidden in our signature sauces are vegetable purees to make sure your kids get a full serving of vegetables, even if they don't eat the vegetables.
- **Extras for Mom** - We love including surprises! Gifts from partners like Purely Elizabeth, Homer Learning, and Bear Snacks make every week of delivery extra fun to open!

As parents, we never have enough time. Yumble is here to take the stress off creating healthy and wholesome meals off your plate forever.

Happy Mealttime,

*Joanna Parker*
